PROJECT VISION

WHAT IS DAWN OF CRYPTOPIA?

Dawn of Cryptopia is a PlayToEarn project that offers a variety of ways to generate real-world income, for both gamers and investors alike. Additionally, Dawn of Cryptopia is the first project with such ambitious up-scaling potential. We have identified that many cryptogames are solely focused on launch, with no future sustainability in mind. As such, we have designed Dawn of Cryptopia with longevity in-mind. With a fully-doxxed team and the core game already completed, Dawn of Cryptopia will be the next big thing in the Cryptogame space!

Visual demonstration only. Current build is not reflective of final visuals, audio, and functionality. All elements are subject to change.

Subject to change. While we endeavour to adhere to it as closely as possible, unforeseen circumstances may arise that require adjustments to be made.

LONGEVITY

WHAT'S NEXT AFTER LAUNCH?

GAME EXPANSION

The first expansion, a turn-based strategy game, is already underway to keep renewed interest in the game

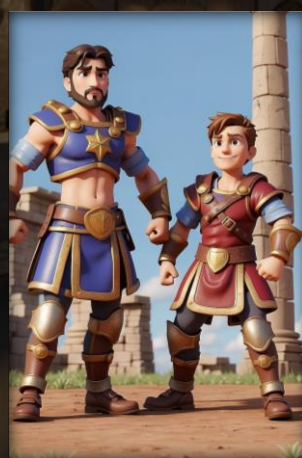

THE CRYPTOVERSE

An interwoven network of Web3 games where players can collect items usable, within other titles. Benefits include...

Increased Project Exposure

Cross-Community Teamwork

More Avenues For Earning

CORE TEAM

MITCH W • FOUNDER & CEO

Mitch is the CEO of Dawn of Cryptopia; overseeing all aspects of the games development. He his PhD in microbiology and has published over 30 papers in the field. It is his love of gaming and web3 that resulted in him launching the Dawn of Cryptopia project.

JAY C • COMMUNITY HEAD

Jay is our community head and is responsible for overseeing the growth and stability of our various platforms. While he has had success in launching projects in the past, his main passion is in building organic communities to bolster project growth.

TOBIAS K • COO

Tobias is the COO of Dawn of Cryptopia and has extensive experience in running his own businesses outside of the Web3 space. It is his attention to detail and organisational ability that will see the project reach new heights in the cryptopgame space.

PAUL S • DEVELOPMENT HEAD

Paul oversees the Dawn of Cryptopia development team, and has over 20 years as a project manager with similar projects. Through his experiences, there is no obstacle too large to overcome and this can be seen through how smooth the game has turned out.

OLEG R • LEAD PROGRAMMER

Oleg is the projects lead programmer, focusing on Web3 but also plays a full-stack role within the team. While his real life keeps him extremely busy (also as a lead developer), he is a passionate gamer and was drawn to Dawn of Cryptopia for that very reason.

Fully doxxed, including faces. We just aren't the most photogenic group and we didn't want to ruin our beautiful Litepaper. Photos and more information are available on our socials.

LEGAL

This document serves as a dynamic resource, containing accurate information at the time of publication. It's crucial to understand that the content provided here does not constitute investment, financial, or trading advice, and should not be relied upon as such. The Dawn of Cryptopia team advises conducting independent due diligence and consulting with a qualified financial advisor before making any decisions.

By obtaining any Dawn of Cryptopia product, you acknowledge that you are not acquiring a security or investment instrument, and you agree to hold the team harmless from any liability for potential losses or taxes. Furthermore, you recognize and accept that the products are provided on an "as is" basis, without any obligation for ongoing support or assistance. It's important to manage expectations regarding the Dawn of Cryptopia Ecosystem and its team.

While Dawn of Cryptopia operates as a community-driven gaming platform and does not constitute a registered digital currency, individuals residing in areas with government restrictions on crypto are strongly advised against purchasing, as compliance with local laws cannot be guaranteed.

The $DAWN token is specifically designed for interacting with the Dawn of Cryptopia game and is intended solely for entertainment purposes, not as an investment vehicle.
